McClaren Tires

Allroad Fabric

—built for long service whatever the going

THE famous McClaren "Mileage Strip"—running through the center of the Tread and entirely around the tire is embodied in the McClaren Allroad Fabric. This wide, continuous band of rubber, unbroken by tread design, carries the load and receives the road shock. It is the feature which gives to the McClaren Allroad Fabric Tire its wonderful wearing qualities.

In addition side walls are doubly reinforced. This prevents curb chafing and rut wearing. Stud angles grip in every direction. This prevents skidding and skid wear.

Come in and let us show you in detail how McClaren mean longer life over any roads to use. ... McClaren Allroad Fabric.
